

Product Description¹

It is available to customize machines to meet your needs. Contact us to get more information.

Standard Vertical Injection Molding Machine

Injection Unit

- Use high-quality screw
- Double cylinder injection system, reliable and stable
- Servo hydraulic system (option) Improve accuracy and save power

Safety Light Curtains

- Longer reliable safety light curtains

Controller

- Use KEBA controller
- Easy and user-friendly operation interface.

Clamping Unit

- Use mechanical direct-locking structure, longer mold service life and lower energy consumption
- High positioning accuracy

Framework

- Reinforced and rugged steel construction

1 Recommend Products

TAIFU MACHINERY

Double Color Vertical Injection Molding Machine

- Allowing for multi-colors and multi-components injection molding
- Allowing for integration with robot
- Improve productivity 30-50%
- Use servo system

350-3500 30-50%
Champing Force (kN) Improve Productivity

TAIFU MACHINERY

Rotary Table Vertical Injection Molding Machine

- Add 2/3/4 molds on the rotary table
- Improve productivity 40-60%
- Use servo system
- Allowing for safer operation
- Allowing for integration with robot

250-3500 40-60%
Champing Force (kN) Improve Productivity

TAIFU MACHINERY

Liquid Silicone Vertical Injection Molding Machine

- Specially design for making liquid silicone products
- Use servo system
- Improve accuracy and save power
- Allowing for integration with robot

250-3500 Silicone
Champing Force (kN) Material

DELIVERY

We products and delivers more than 2,000 sets of vertical injection molding machines annually. All the machines will be packed well before shipment.

OUR WORKSHOP

We have 15,000 square feet of manufacturing floor space and with facilities in China. All the machines are manufactured by our own employees in our own factory.

1 Company Profile

WHO WE ARE

TAIFU Machinery is a professional manufacturer of vertical injection molding machines integrated with strong capabilities of R&D, manufacturing and services, with more than 15 years manufacturing experience; 100 employees; 15,000 square feet of manufacturing floor spaces and with facility in the Dongguan city, Guangdong province, China. We are certified by ISO9001 and patents 20 inventions.

We aims to supply quality products and excellent services to create value for customers on the basis of integrity, innovation, and win-win cooperation. TAIFU Machinery will be your most valuable and reliable partner in business.

1 WHAT WE DO

There are wide range of vertical plastic injection molding machine (thermoplastic, rubber) we provide, including Rotary table vertical injection molding machine, Bakelite machine, BMC Machine, LSR silicone injection molding machine, C-type vertical injection molding machine, etc. Not only can we provide standard machines, but we are able to also customize machines to meet your unique needs.

Our Partner

For more than 15 years, we have recognized our customers as long-term partners, growing together. Take advantage of this global strength, and grow with us as we grow with you.

Our Partners

For more than 15 years, we have recognized our customers as long-term partners, growing together.

Take advantage of this global strength, and grow with us as we grow with you.

WHY CHOOSE US¹

Some points which we believe set us apart from the crowd

Extensive Experience - 15 Years Manufacturer

TAIFU specializes in vertical injection molding machine as a manufacturer with more than 15 years in the global market. Long experience in manufacturing and continuous further development and improvement have made our machine a top quality product.

WHY CHOOSE US²

Dependable Quality - Less Maintenance Longer Lifetime

TAIFU continues to control the entire supply chain and quality from raw material to machines assembly. All the machines are manufactured by our own employees in our own factory and rigorously tested by our engineers before shipment.

CUSTOMER SITES

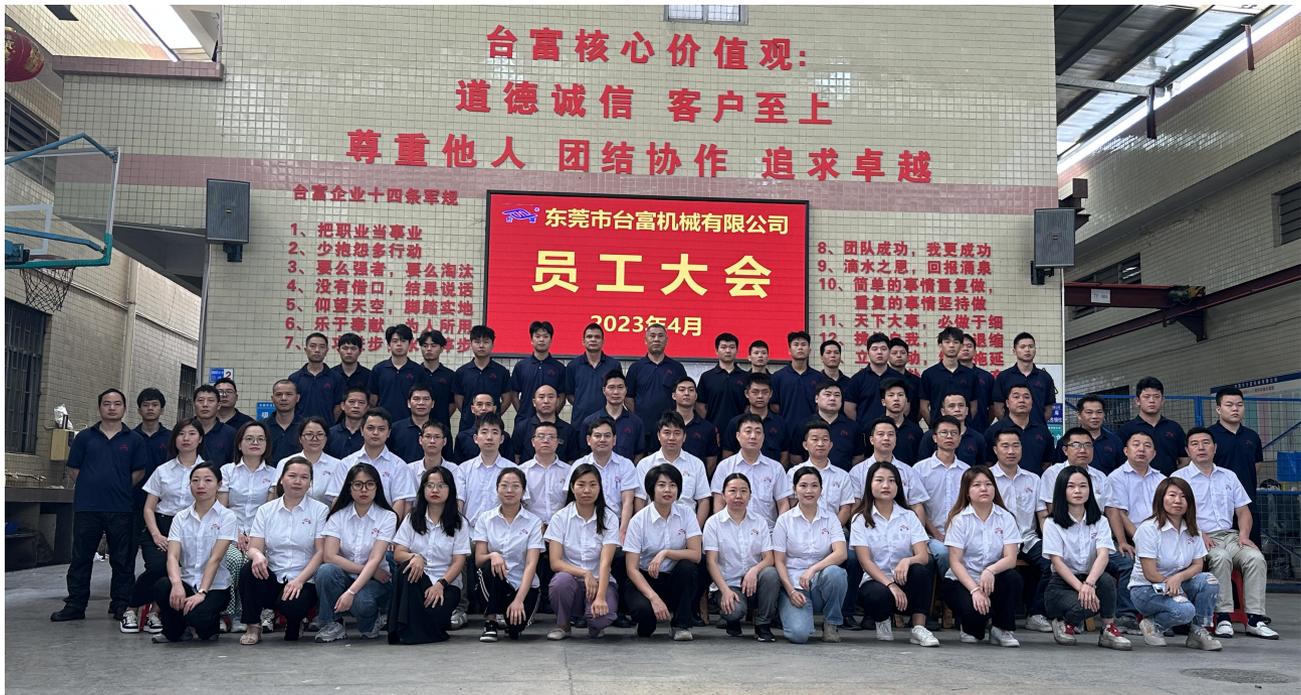

We provide one-stop solutions of plastic injection molding from raw material to automation, trying to create more values for our customers.

WHY CHOOSE US³

Efficient Services - 24 Hours Online Technical Support

From design to after-sales services, TAIFU sticks to customer-centric principle. Technical support is consistently provided during the whole machines lifetime. You can get a quick response to any questions within one working day.

4 WHY CHOOSE US

Your Professional Vertical Injection Molding Machine Manufacturer-TAIFU

We are ready to provide a well-built, high-performance products. [Contact Us Now!](#)
